Reason for requesting an extension	

About 120-Day Extension

120 days is the maximum amount of time your certification can be extended during a recertification period. If you are currently on a 30-day extension and request a 120-day extension, you will only have 90 days added to your extension

However, the 120-day extension is permanent (meaning when you re-certify, you will receive 2 years from your extended expiration date / this is not the case with the free 30-day extension). A credential can be expired for up to 1 year, after which, you will need to retake the exam.

120-Day Extension Fee: USD150
